

Home Lawn Care Program

1. Early Spring: Crabgrass Preventer

12-0-0 w/.15 Dimension (25% slow release)

Combo Fertilizer with excellent control of crabgrass, poa and other grassy weeds

1 bag per ¼ acre- \$27.00

Tip- Must water in after application to form barrier

2. Spring: Weed and Feed

17-0-4 30% Slow release with Lockup

Premium "weed and feed" that controls a broad spectrum of weeds. Best choice to control clover. (May need 2 applications 30 days apart for best control)

1 bag per ¼ acre- \$38.00

Tip- Must wet lawn prior to application so flakes stick to leaves

3. Summer: Fertilizer / Insect Control

17-0-0 40% Slow Release 3% Iron, w/ Entourage

Feeding, Insect Control, Green up

1 bag per ¼ acre- \$36.00

Tip- Do not apply during excessive heat. Water in after application

4. Early Fall: Fertilizer

18-0-6 w/ 3% Iron (50% slow release)

Feeding, Green up

1 bag per ¼ acre- \$24.00

Tip- Water in after application

Sub with Weed and Feed if needed (follow tip above)

5. Late Fall: Fertilizer

30-0-5 (30% slow release)

Premium Fertilizer that provides necessary nitrogen in late fall

1 bag per ¼ acre- \$26.00

Tip- Water in after application

Optional Late Fall: Dolomitic Lime

Raise pH

2 bags per ¼ acre- \$10.00

Tip- Water in after application
